SUMMARY

A forward-thinking developer offering more than **Seven years** of experience building, integrating, testing, and supporting Android applications for mobile and tablet and TV devices on the Android platform. Solid understanding of full mobile and software development. Dedicated to continuously developing, implementing, and adopting new technologies to maximize development efficiency and produce innovative applications, I mainly develop native android app but I also experience with flutter and I'm interested in working with new Technologies.

SKILLS

- Android
- Kotlin
- Flutter
- Android Development
- Scrum
- Android SDK
- Hilt
- Rx java
- SQLite
- Room
- MVP
- Jetpack Compose
- Java
- Android Development
- Object-Oriented Programing
- Jira
- Dagger
- Firebase
- Kotlin Coroutine
- Realm
- MVVM
- Clean Architecture
- Google APIs

EXPERIENCE

Senior Android Developer | Pardazesh Negar Rashin

oct 2019– present

Working as part of a developing team, I design and improve and Implement the Android Applications for this company. The most important product of this company is Gap film and it's a subscription-based streaming services That allows our members to watch TV shows and movies. This app has 4Million active user in Google Play.

Tasks & Responsibilities

- Implemented new features for applications in Kotlin.
- Determined architectural and product design details for open-ended tasks or specifications.
- Collaborated with quality engineers, user research, product management, design, and support teams to ensure quality in all phases of app development.
- Wrote elegant, self-documenting code, easy to read and adapt for other developers.
- Using Unit Testing and Integration Testing.
- Fixed bugs with code, design patterns and miscellaneous occurrences during projects.

Projects

Gapfilm Oct2019 - Present

Design, architecture, and implementation of the android application.

Gapfilm for Android TV Jun 2020 - Present

implementation and developing gap film from only usable on mobile devices to something enjoyable on android TVs or android boxes for our user. I helped designed new layout for whole app with new features with clean and optimized code.

Technologies

Kotlin, MVVM, Dagger, FCM, Notifications, Rest APIs, Room, Kotlin Coroutine, Rx Java, retrofit, Work, Services, Navigation Component, Exo Player, google Ads, Download Manger
