# MOSTAFA GNAJIAN MOGHADDAM
## JAVA DEVELOPER

## PROFILE

Talented Java developer. I have developed a lot of applications in a wide range of industries including Fintech, Exchange, IOT, Telecommunication, Music, Education, Sport and etc.

I thrive to build high-quality, secure and performant apps which shows with some of them reached 1M+ user installs and the other got the prize of most secure app in the country.

Staying up to date with technologies is my Top priority.

I'm a passionate developer who loves learning.
